

W0129-02 Hollywood Scope

The Management of the disposal of mildly contaminated inert waste materials into engineered lined cells in a monitored environment in the full restoration of a limestone and shale quarry.

Our business

Murphy Environmental Hollywood Ltd. is a waste management division of the Murphy Group., based in the Naul, Co. Dublin. Murphy Environmental Hollywood Ltd. has a maximum intake for landfill and waste recovery of 500,000 tonnes per annum. This facility operates under the terms of a Waste Licence from the Environmental Protection Agency (EPA). **Our site sets new standards for engineered restoration in Ireland.**

Our core principles

Our overall objectives are to enhance the environment at our site by implementing programmes of controlled restoration, and to research, develop and facilitate waste management and recovery options for the construction and related sectors. Murphy Environmental Hollywood Ltd. is conscious that waste-related activities have the potential to impact on the environment. We are fully committed and obliged under our EPA licence to manage and operate our facility to the highest possible standards thus ensuring that our activities do not cause environmental pollution.

Our staff and customers

Murphy Environmental Hollywood Ltd. is managed by an experienced and trained team, who receive every support from management to fulfil their responsibilities towards environmental management. We are committed to achieving a safe working environment, where our staff are valued and respected. We will work to meet the demands of our customers wherever possible, without compromising company policy or stated environmental objectives and legal requirements.

Management of the environment

We have established Environmental Management Systems for our facility.

We commit to:

- Satisfying and exceeding all legal requirements for waste management and other relevant legislation
 - Managing our environmental impacts and improving our performance by setting and reviewing environmental objectives and targets
- Avoiding nuisance to neighbours by managing traffic, noise, dust and mud
- Carrying out regular environmental monitoring and publishing results on our website
- Reporting publicly on the operation and management of the facility
- Certifying our Environmental Management Systems to ISO14001:2004

This policy will be displayed in our Site Offices, made available to all employees and interested parties and published on www.mehl.ie
