PLEASE NOTE:

- Only INERT waste is acceptable
- Liquid wastes, sludges, shredded waste, insulation materials containing asbestos, hazardous wastes are NOT acceptable
- If disposal of a waste material with an EWC Code that is not listed on our Waste Licence W0129-02, laboratory analysis must be submitted proving the material is inert & approval for disposal of this material may be required by the EPA
- Failure to identify your waste types correctly at this stage may result in your waste being rejected upon receipt at the landfill and/or incur additional haulage, disposal and laboratory costs.
- Vehicles delivering waste and materials to our facility must be appropriately covered, where necessary
- Vehicles should be fitted with a working beacon which must be turned on during the winter months & periods of restricted visibility, working tail gates, in a road worthy condition and driven by a competent driver capable of communicating and accepting instructions verbally and driving and tipping at a landfill site
- All on-site excavations/removals should be overseen by a competent person, QA records maintained & loads checked prior to leaving your site. If you suspect further contamination, please refer to this office. Additional sampling & laboratory analysis may be required

We operate a purely inert landfill so could you please ensure that there are no organic fragments (paper, plastic, steel, cardboard etc.) contaminating the waste material, any evidence of organic fragments will result in the material being turned away from our Hollywood Facility.

Each load we accept must have an accompanying site exit docket indicating the following:

- | | |
|------------------------------------------------------------|-----------------------------------|
| 1. The time and date the material was loaded | 5. Waste Collection Permit Number |
| 2. The trial pit/borehole/stockpile reference | 6. EWC Code |
| 3. The site address | 7. The vehicle registration |
| 4. The destination e.g. Murphy Environmental Hollywood Ltd | 8. An exit docket number |

This docket must be signed by a competent person who has witnessed the loading of the material onto the lorry/trailer.

****NOTE 1: Where waste is from multi sources attach a separate sheet detailing all waste sources**

****NOTE 2: Where more than one Waste Permitted Haulier is to be used attach a separate sheet detailing all Waste Permit Numbers and related Haulier Vehicle Registration Numbers to this document and sign it**

Please pre-book your delivery of waste to the site by telephoning the Facility Manager on 01 8433744.
